

FOR IMMEDIATE RELEASE:

**SiloSmashers and Booz Allen Hamilton Team in the
U.S. Environmental Protection Agency's Information Technology Solutions –
Business Information Strategic Support II (ITS BISS II)**

Contract Award

New Contract Creates Opportunities for Expansion of Services Delivery to EPA

Fairfax, VA – February 1, 2011 – SiloSmashers, Inc., an industry-leading strategy, management, and technology consulting firm, serving the public sector, today announced that that it is a subcontractor for the U.S. Environmental Protection Agency's (EPA) Information Technology Solutions - Business Information Strategic Support II (ITS-BISS II) contract awarded to prime contractor Booz Allen Hamilton.

ITS-BISS II was developed and awarded by the EPA's Office of Environmental Information (OEI), to support the agency's information technology (IT) and information management missions, with a full range of advisory and assistance services, including policy, planning and program management support, services and solutions.

“We are very pleased to be part of the Booz Allen team and we are excited about the value proposition our two firms present together” said Jeff Nulf, Vice President of SiloSmashers EPA Business Unit. “Most importantly, we greatly appreciate the vote of confidence the EPA has once again shown in our organization with this most recent award. We will continue to work extremely hard to deliver the results our EPA clients require and to ensure their ongoing and long-standing trust in our company remains well founded and warranted.”

SiloSmashers, Inc., founded in 1992, delivers superior services and solutions to the Federal Government, in the areas of program management, performance management and information technology security. The company combines innovative, collaborative business approaches and proven methodologies that enable customers to break down organizational silos and optimize operational efficiency to achieve peak performance and mission success today and in the years ahead. www.silosmashers.com
