

**FOR IMMEDIATE RELEASE:**

**SiloSmashers Expands Services Delivery in Two Critical Areas of the Environmental Protection Agency (EPA)**

*Company Wins Consecutive Task Orders under the EPA Information Technology Solutions - Business Information Strategic Support II (ITS-BISS II) and Professional and Program Management Support Services (PPMSS) contracts*

Fairfax, VA – August 23, 2011 – SiloSmashers, Inc., a privately-owned, strategy, technology and management consulting firm serving the public sector, announced today that they have been selected, under the EPA ITS-BISS II and PPMSS contracts, to provide technical and management support services to both the EPA Office of Administration and Resource Management (OARM), and EPA’s Office of Environmental Information (OEI).

The Office of Administration and Resources Management plays a vital role in providing the national leadership, policy guidance, and management of essential support functions for the Agency including, human resources management, acquisition activities, grants management, and protection of EPA’s facilities and other critical assets nationwide. SiloSmashers was selected to support OARM in these efforts by providing technical assistance, administrative support, policy development, training, and diversity and Agency promotional support.

Jeff Nulf, SiloSmashers’ Vice President, EPA Business Unit, commented, “SiloSmashers is very pleased to have built a highly successful partnership with EPA, rooted in our shared principles of collaboration, business integrity and a strong commitment to delivering the highest quality of service and results. We’re extremely pleased to be part of the OARM team and we look forward to supporting them in their mission critical activities and functions across the country.”

SiloSmashers also recently won an ITS BISS II task order to assist EPA’s Office of Environmental Information in supporting their Automated System Security Evaluation and Remediation Tracking (ASSERT) tool, as well as supporting development of quarterly and annual reports required by the Federal Information Security Management Act (FISMA). SiloSmashers will provide an experienced team of security experts, project/process managers and system developers to take the lead in this effort, as well as provide IT Security support across the EPA enterprise.

SiloSmashers’ Senior Program Manger, George Bonina commented, “We are extremely pleased to have the opportunity and privilege to support Mr. Robert McKinney, EPA’s Senior Agency Information Security Officer and his EPA security team. We recognize the critical nature of the work at hand and more importantly, we understand that it plays a paramount role in the overall success of EPA in achieving its environmental protection mission responsibilities. EPA has been a leader in Federal IT security and it is a privilege to bring SiloSmashers unique capabilities to support their evolving security program.”

**About SiloSmashers**

SiloSmashers, Inc., founded in 1992, delivers superior services and solutions to the Federal Government, in the areas of program management, performance management and information technology security. The company combines innovative, collaborative business approaches and proven methodologies that enable customers to break down organizational silos and optimize operational efficiency to achieve peak performance and mission success today and in the years ahead.
